Sprint Review Documentation – Inkrement 3

Date: 24.01.2024

Team Members Present: Muazzam Bin Aqeel

                            Ruth Jesulayomi Mautin Amosu

                            Aida Zhumiyeva

                            Keti Hazbiu

                            Citlalin Reyes Soto

                            Ebtehal Aldheeshy

                            Cosmin C. Andronescu

                            Wesley Dos Santos Barisch

1. Overview of Sprint Goals:

The goal of this sprint was the following:

- Finish all the pending tasks from previous sprints and the ones left unassigned. Those are:
  - User-Project-Role relationship update on source code.
  - Team tab database integration
  - Database tables update for user_role_project.
  - Database backup configuration
  - Develop taskboard class.
  - Icon for the application
  - Test case related to ui components of all ui files.
  - Adjust sample data.
  - Develop calendar table.
  - Limit access to team members role.
  - Update registration screen ui.
  - Database connection optimization.
  - Color design implementation.
- Identify and fix bugs with the current state of the software.
- Document the changes made since the last update to the database model, vision document and user manual.
- Finish the user manual.
- Document lessons learned throughout the semester of software project.
- Test the lastly created functionalities of the software.
- Update all the software related documents (risk list, reviews, retrospectives, planning...).

- Update the product backlog and the tasks in JIRA.

2. Accomplished goals:

- Tasks mentioned were finished accordingly.
- The bugs that were found were fixed.
- Documents are updated.
- User manual is finished.
- Lessons learned doc finished.
- Not all new functionalities were able to be fully tested.

3. Blockers and Dependencies:

Blockers Faced:

- Overload of tasks

- Misinterpretation of some of the task's requirements

- Database storage reaching full capacity

4. Next Sprint Goals:

Release!

Date of Document Preparation:

06.12.2023 to 07.12.2023
